DISCOVER MISSOULA

One easy place to find the arts, games, parks and local businesses that fit how you want to spend your time.

PROBLEM STATEMENT

Missoula’s competitive sports get the spotlight. Theater, skating, gaming, parks, arts and local shops are spread across many sites, so residents often never find them.

01 Challenging to Discover

Listings such as activities, arts, local events and businesses live in many places, so people miss what is nearby.

02 Different Planning Outcomes

Cost, time, age and access needs decide what is realistic for each resident.

03 Discovering Should be Simple

The city needs a welcoming approach to connect residents with local opportunities.

PROPOSED SOLUTION

A guide that starts with how you want to spend your time. Residents browse by interest and narrow by cost, timing and access, with every activity shown on equal footing.

01 Browse by Interest

Arts, outdoors, games, active and local shops, each with the same card design.

02 Simple Filters/Narrow it Down

Use simple categories and cost filters with clear labels for indoor/outdoor activities that can be family-friendly as an option when it's known.

03 Staying Up to Date and Local

An "Events This Week" page and a small-business directory keep it useful.

SCOPE & DELIVERIES

01
Home

Welcome, featured picks/current events, and quick links for categories.

02
Explore

Browse listings by interest, activity type, cost options with filters.

03
Events & Activities

A starter with a set of upcoming events and recurring activities.

04
Listing Detail Template

Reusable detail layout for what, when, where, and official links.

05
About & Suggestions

About info about organization and website purpose, provide a simple way to suggest local listings.
